Financial Risk Management Policy Statement & Assessment

Definition of Risk Management

Risk is the threat that an event or action will adversely affect an organisation's ability to achieve its objectives and to successfully execute its strategies. Risk management is the process by which risks are identified, evaluated and controlled. It is a key element of the framework of governance together with community focus, structures and processes, standards of conduct and service delivery arrangements.

Risk Policy Statement

Brackley Town Council, hereafter referred to as BTC recognises that it has a responsibility to manage risks effectively in order to protect its Councillors, assets, liabilities and the community against potential losses, to minimise uncertainty in achieving its goals and objectives and to maximise its opportunities.

BTC is aware that some risks can never be eliminated fully and we have tried to ensure we have a strategy that provides a structured, systematic and focussed approach to managing risk.

Approach to Risk Management

BTC's approach to risk management is that we should try to identify and manage risks in the most cost effective manner within overall resources available.

Each risk identified by BTC is recorded in BTC's risk assessment document. The impact is assessed; control measures we feel to be appropriate are put in place together with the frequency with which the risk should be reviewed.

Responsibility for Risk Management

BTC recognises that it is the responsibility of all councillors and all staff as an employees to have regard for risk in carrying out their duties. If uncontrolled, risk can result in a drain on resources that could better be directed to front line service provision and to the meeting of BTC's objectives and community needs.

This policy has the full support of BTC which recognises that any reduction in the risk of injury, illness, loss or damage benefits the whole community. From recent experience, we already know that Council responsibility cannot be taken lightly and areas like succession planning are critical.

The co-operation and commitment of all members of BTC and employees is required to ensure that council resources are not wasted as a result of uncontrolled risk.

BTC is responsible for ensuring that this procedure is adhered to.

This Policy and Risk Assessment will be reviewed annually in line with the Standing Order Calendar.
